Energy Conservation Policy

Purpose

To establish guidelines and practices that will lower the energy consumption of Institute and reduce expenditures on energy and support the use of alternate sources of energy.

Scope

The policy is applicable to all teaching and non teaching staff and students.

Policy

Lighting

- ❖ Employees and students shall make every effort to reduce the amount of energy associated with lighting in the institute by turning lights off in unoccupied spaces.
- ❖ Maximizing the use of natural light and turning off all nonessential lighting whenever possible.
- ❖ Utilizing task lighting in lieu of overhead lighting. Use LED bulbs to minimize energy consumption.

Office equipment

- ❖ All powered office equipments shall be turned off or placed in standby when not in use.
- ❖ Office equipment quantities shall be reduced through consolidation to central locations for shared use whenever possible.
- ❖ Office equipments purchased with institutional funds in required to be Energy Star labeled.

INNOVATIVE COLLEGE OF PHARMACY

Affiliated To Dr. A.P.J. Abdul Kalam Technical University, Lucknow, U.P. & Approved By PCI

Employees and students

- ❖ All electric appliances shall be turned off when not in use.
- ❖ Use natural lightings and ventilation to avoid daytime lights.

Use of alternate source of energy-

- ❖ Institute has installation of solar panels of 60KW as alternate source of energy.

Review

Energy conservation policy advisory committee will evaluate and recommend policy revision when appropriate.

Responsibilities

- ❖ Institution employees and students are responsible for-
- ❖ Recognizing that energy conservation is important to the institution's fiscal health and environmental goals.
- ❖ Complying with the policy.
- ❖ Take actions to conserve energy and reduce energy waste.
- ❖ If employees or students have ideas on energy consumption or wish to report energy waste they should inform office / Administrative / General work areas and responsible budget executive or designee.
