Report on Seminar

Topic: "Sampling Techniques in Research: Strategies and Implications"

Venue: Seminar Hall

Time: 12.00 pm – 2.00 pm

Speaker: Dr. Mritunjay Pandey

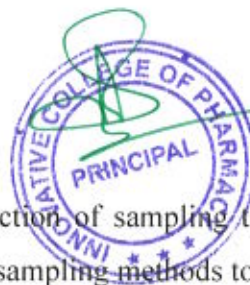

Introduction: The seminar on "Sampling Techniques in Research: Strategies and Implications" was held on the 23rd of May, 2023. It aimed to provide a comprehensive understanding of various sampling techniques used in research and their implications on study outcomes. The seminar was attended by researchers, academicians, and students from diverse fields.

Key Points Discussed

- Importance of Sampling in Research
- Types of Sampling Techniques
- Probability vs. Non-Probability Sampling
- Implications of Sampling Techniques

Conclusion

The seminar provided valuable insights into the strategic selection of sampling techniques in research. It emphasized the importance of choosing appropriate sampling methods to enhance the validity, reliability, and generalizability of research findings. Attendees left with a better understanding of the complexities and practicalities of sampling in research.

Report on Seminar

Topic: "Longitudinal Research: Studying Change over Time"

Date: 29.05.2023

Venue: Seminar Hall

Speaker: Mr. Somnath Kharwar

Introduction:

Expert in longitudinal research methodology, Mr. Somnath Kharwar,, gave a session on 29 March 2023 titled "Longitudinal Research: Studying Change Over Time". Peoples from different fields, including researchers, professors, and students, attended the seminar.

Key Points Discussed

1. Introduce the concept of longitudinal research.
2. Discuss the significance of studying changes over time.
3. Highlight the methodologies and designs used in longitudinal studies.
4. Present case studies and practical applications of longitudinal research.

Conclusion

The seminar on "Longitudinal Research: Studying Change over Time" provided valuable insights into the methodologies, applications, and challenges of conducting longitudinal studies. The discussion underscored the importance of this research approach in understanding developmental trends, identifying causal relationships, and informing policy decisions.

INNOVATIVE COLLEGE OF PHARMACY

Affiliated To Dr. A.P.J. Abdul Kalam Technical University, Lucknow, U.P. & Approved By PCI

Participants left with a deeper appreciation for the complexity and significance of longitudinal research, equipped with knowledge to apply these methods in their own work.

Report on Seminar

Topic: "Legal and Economic Implications of Counterfeiting and Piracy on Intellectual Property"

Venue: Seminar Hall

Date: 25-03-2023

Speaker: Dr. Rehan Khan Suri

Introduction: On **25-03-2023**, a seminar titled "Legal and Economic Implications of Counterfeiting and Piracy on Intellectual Property" was conducted by Dr. Rehan Khan Suri, a distinguished expert in intellectual property law. The seminar was attended by 18 participants, including legal professionals, economists, students, and faculty members from various institutions.

Key Points Discussed

- Highlight the legal frameworks governing intellectual property rights (IPR).
- Discuss the economic impact of counterfeiting and piracy.
- Explore the challenges and solutions in enforcing IPR.
- Present case studies and real-world examples of intellectual property infringement.

Conclusion

The seminar on "Legal and Economic Implications of Counterfeiting and Piracy on Intellectual Property" provided a comprehensive overview of the challenges and solutions associated with IP enforcement. The discussions underscored the importance of robust legal frameworks,

Report on Seminar

Topic: "Maintaining Objectivity: Dealing with Personal Bias in Research"

Date: 15-02-2023

Venue: Seminar Hall

Speaker: Dr. Sanjay Kumar Yadav

Introduction: On 15th February 2023, a seminar titled "Maintaining Objectivity: Dealing with Personal Bias in Research" was conducted by Dr. Sanjay Kumar Yadav, an expert in research methodologies and ethics. The seminar was attended by 20 participants, including researchers, academics, and students from various fields.

Seminar Highlights:

- Define objectivity in the context of research.
- Identify common sources of personal bias in research.
- Discuss strategies to mitigate personal bias.
- Present case studies illustrating the impact of bias on research outcomes.

Conclusion

The seminar on "Maintaining Objectivity: Dealing with Personal Bias in Research" provided valuable insights into the importance of objectivity in research and the various ways personal bias can influence outcomes. The discussion underscored the need for awareness, methodological rigor, and collaborative efforts to mitigate bias and ensure the integrity of research. Participants left with a deeper understanding of the challenges posed by personal bias and equipped with practical strategies to maintain objectivity in their research endeavors.

Topic: "Phenomenological Research: Understanding Human Experiences"

Date: 20-12-2022

Venue: seminar hall

Speaker: Dr. Avneet Kaur Lamba

Introduction: On , 20-12-2022 a seminar titled "Phenomenological Research: Understanding Human Experiences" was conducted by Dr. Avneet Kaur Lamba, an esteemed scholar in phenomenological research methodologies. The seminar was attended by 45 participants, including researchers, students, and faculty members from various disciplines interested in qualitative research.

Seminar Highlights:

- Introduce the principles of phenomenological research.
- Discuss the significance of understanding human experiences in research.
- Explore methodologies and techniques used in phenomenological studies.
- Present case studies and examples of phenomenological research.

Conclusion

The seminar on "Phenomenological Research: Understanding Human Experiences" provided a comprehensive overview of the principles, methodologies, and applications of phenomenological research. The discussions underscored the importance of capturing the essence of human experiences to inform practice and policy in various fields. Participants left with a deeper

Venue: Seminar Hall

Speaker: Mrs. Deepika chauhan

Introduction: The seminar on "Mastering Report Writing: Essential Steps for Success" was held on 03-12-2022, focusing on enhancing the report writing skills of professionals and students. The seminar aimed to provide participants with practical guidance on how to write effective and professional reports.

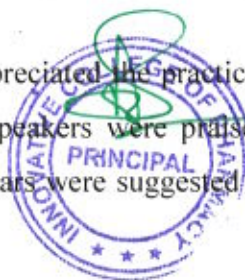

Target Audience: Researchers, academicians, graduate students, and research administrators

Seminar Highlights:

- Identifying Challenges
- Strategies for Effective Time Management
- Resource Allocation
- Technology in Research
- Collaboration and Networking

Conclusion

The seminar received positive feedback from attendees, who appreciated the practical nature of the sessions and the opportunity to network with peers. The speakers were praised for their expertise and the interactive format of the seminar. Future seminars were suggested to focus on specific fields of research to address more tailored challenges.

Report on Seminar

Topic: "Using Frequency Distribution to Identify Trends in Social Science Research"

Date: 30-11-2022

Venue: Seminar Hall

Speaker: Dr. H.S. Lamba

Introduction

Frequency distribution is a fundamental statistical tool used to summarize and analyze data. In social science research, it plays a crucial role in identifying trends and patterns within data sets. This report aims to elucidate how frequency distribution can be employed to uncover trends in social science research, enhancing our understanding of various social phenomena.

Objectives

- To explain the concept and methodology of frequency distribution.
- To illustrate the application of frequency distribution in social science research.
- To evaluate the advantages and limitations of using frequency distribution for trend analysis.

Frequency Distribution: Concept and Methodology: Frequency distribution refers to the organization of data into a table that displays the number of occurrences of each value or range of values. Its primary purpose is to simplify complex data sets, making it easier to identify patterns and trends.

Components of Frequency Distribution

- Classes (Intervals).

INNOVATIVE COLLEGE OF PHARMACY

Affiliated To Dr. A.P.J. Abdul Kalam Technical University, Lucknow, U.P. & Approved By PCI

- Frequency
- Relative Frequency
- Cumulative Frequency

Constructing a Frequency Distribution Table

1. Data Collection
2. Define Intervals (if applicable)
3. Count Frequencies
4. Calculate Relative and Cumulative Frequencies

Conclusion

Frequency distribution is an essential tool in social science research for organizing and analyzing data to identify trends. By summarizing data into structured formats, researchers can uncover valuable insights into social phenomena. While it offers clear benefits in terms of clarity and trend identification, it is important to be mindful of its limitations and use it in conjunction with other analytical methods for a comprehensive understanding of the data.

Report on Seminar

Topic: The Startup Journey from Idea to Execution

Date: 09-11-2022

Venue: Seminar Hall

Speaker: Ms. Priyanka srivastava

Introduction

The journey from a mere idea to a fully executed startup is a complex and challenging process that requires strategic planning, innovation, and persistence. This seminar explores the critical stages involved in transforming an idea into a successful business venture. The purpose of this seminar is to provide a comprehensive understanding of the startup process, highlighting key milestones, challenges, and strategies for success.

Objectives

To equip aspiring entrepreneurs with the knowledge and tools needed to navigate the startup journey, from idea generation to the execution and scaling of the business.

Seminar highlights:

- Idea Generation and Validation
- Business Planning
- Funding and Resources
- Execution and Growth
- Challenges and Lessons Learned

INNOVATIVE COLLEGE OF PHARMACY

Affiliated To Dr. A.P.J. Abdul Kalam Technical University, Lucknow, U.P. & Approved By PCI

Conclusion

- **Summary:** The startup journey is a dynamic process that requires careful planning, execution, and adaptation. From idea generation to scaling the business, each stage presents unique challenges and opportunities.
- **Final Thoughts:** Aspiring entrepreneurs should approach the startup journey with resilience, creativity, and a willingness to learn. By leveraging the knowledge and strategies discussed in this seminar, they can increase their chances of building a successful and sustainable business.

Report on Seminar

Topic: "Quantitative vs. Qualitative: Navigating the Spectrum of Research Design"

Date: 11-10-2022

Venue: Seminar Hall

Speaker: Ms. Priyanka srivastava

Introduction

The seminar on "Quantitative vs. Qualitative: Navigating the Spectrum of Research Design" aimed to provide an in-depth understanding of the two primary research methodologies, their respective strengths and limitations, and how they can be effectively applied in various research contexts.

Objectives

- To differentiate between quantitative and qualitative research designs.
- To explore the applications and suitability of each methodology.
- To discuss the challenges and best practices in implementing these research designs.

Session Summaries

Session 1: Introduction to Quantitative Research Design

Session 2: Exploring Qualitative Research Design

Session 3: Integrating Quantitative and Qualitative Methods

INNOVATIVE COLLEGE OF PHARMACY

Affiliated To Dr. A.P.J. Abdul Kalam Technical University, Lucknow, U.P. & Approved By PCI

Key Discussion Points:

- Criteria for selecting between quantitative and qualitative research designs.
- Ethical considerations in both methodologies.
- Future trends in research methodology.

Conclusion

The seminar provided valuable knowledge on the spectrum of research designs, helping attendees understand the strengths and limitations of both quantitative and qualitative approaches. It emphasized the importance of selecting the appropriate methodology to address specific research questions effectively.
